ABOUT US

Profection Power Solutions (Pty) Ltd is a South African electrical engineering and manufacturing company delivering high-quality, customized solutions across the industrial, commercial, and renewable energy sectors.

We specialize in the design, manufacturing, and commissioning of full-system electrical installations - transforming technical complexity into reliable performance.

WHAT WE DO

Our integrated solutions combine engineering precision with reliable manufacturing.

- **Distribution Boards (DB's)** | Low, Medium & High voltage, SANS-compliant.
- **Control Panels & MCC's** | Modular, Automated and Site specific.
- **Containerized Substations** | Mobile, compact Substations with full system integration.
- **Smart Panels & Enclosures** | Weatherproof, Intelligent Panels with monitoring and relays.
- **Turnkey Services** | From Panel Design to on-site reticulation and final commissioning.
